Summary

Frontend-focused Software Engineer with 1+ years of experience building scalable, user-centric web applications using React, JavaScript, and modern CSS frameworks. Strong foundation in responsive design and state management using Redux Toolkit. Experienced in collaborating on real-world projects, translating requirements into intuitive UI solutions, and leveraging AI tools to improve development productivity. Exposure to backend systems using Java and Spring Boot.

Skills

Frontend: React.js, JavaScript, Next.js, Redux Toolkit, Tailwind CSS

Backend: Java, Spring Boot, Hibernate, JPA, REST APIs, SQL

Tools & Platforms: Git, Postman, VS Code, IntelliJ

Experience

Omninos Software Solutions	Software Developer Intern	2022/10 - 2023/4
- Built responsive web applications using React.js with reusable, modular components. - Implemented global state management using Redux to improve application scalability. - Integrated REST APIs and handled asynchronous data flows using Axios.		
Mphasis Pvt. Ltd.	Associate Software Engineer	2021/6 - 2022/7
- Worked on enterprise HRM systems using PeopleSoft, contributing to UI and process enhancements. - Maintained and optimized MySQL database tables to ensure data integrity and efficient querying. - Supported and enhanced batch and BI processes, improving system reliability and reducing manual effort.		

Projects

Weather Application:	Frontend	2024/3 - 2024/6
https://wolf-dagger.github.io/weatherApp/ - Developed a responsive weather application with real-time API integration. - Fetches and displays weather data using Fetch/Axios. - Implemented mobile-first UI with Tailwind CSS and reusable components.		
E-Commerce Website:	Backend	2023/6 - 2024/1
https://github.com/wolf-dagger/SpringBoot_Ecomm_Project - Designed and developed RESTful APIs using Spring Boot, following industry best practices. - Implemented business logic with separation of controller, service, and repository layers. - Integrated MySQL for persistent data storage with optimized queries and indexing.		

Education

Chandigarh University	Computer Science · B.E./B.Tech.	2015/09 - 2019/06
Developed an IoT-based obstacle-avoiding robot using ultrasonic sensors and microcontroller logic for real-time obstacle detection and autonomous navigation. The project was selected and presented at IIT Delhi.		

Certification

BOSSCODER ACADEMY	Software Developer Engineer	2024/12 - Present
Gained a strong foundation in Data Structures & Algorithms, including arrays, strings, stacks, queues, trees, and hash maps.
